

LEENA MODY & ASSOCIATES
Average Adjusters & Marine Claim Consultants

Leena Mody & Associates (LMA) provides Average Adjusting and Marine Claims Consultancy Services within India and overseas. LMA has been started by Leena Mody, who qualified in 2002 as a Fellow Member of the Association of Average Adjusters, UK.

LMA is fortunate to have as mentor Mr. Ravindra Sankalia, who is a Full Member of the Association of Average Adjusters, USA since 1984.

Extensive and varied experience of both these qualified Adjusters enables LMA to deal with all aspects of Average Adjusting and Marine Claims including interpretation of policy terms and conditions, determination of liability under the policy, quantification of loss payable, etc. Wherever necessary, associate technical team is also involved to assist in client assignment.

LMA provides complete range of Average Adjusting and Consultancy Services to meet the diverse needs of Shipowners, Underwriters, Charterers, Cargo Interests, Salvors, Shipbuilders, Ship Repair Yards, etc.

LMA assists in the preparation of Statement of Claims for loss or damage to different types of vessels like General Cargo Carriers, Tankers, Bulkers, Dredgers, Container Ships, Offshore Supply Vessels, SBMs, Drill Ships, Ocean Research Vessels, Barges, Trawlers, Pleasure Crafts, etc.

LEENA MODY

Leena Mody qualified as a Fellow of the Insurance Institute of India in 1990 and, as a Fellow Member of the Association of Average Adjusters, UK in 2002. She is the first lady in Asia and third in the world to qualify as an Average Adjuster. Presently, she is the only lady in the world independently practicing as an Average Adjuster.

She has over 25 years of experience in handling various types of Marine Claims. Leena has also delivered papers on Average Adjusting, Marine Insurance, etc. at various seminars within India and overseas.

RAVINDRA SANKALIA

Ravindra Sankalia qualified as a Full Member of the Association of Average Adjusters, USA in 1984 and is a very senior and respected professional in the Marine Insurance Industry. He has handled wide range of Average Adjusting and Marine Claims in his long tenure practicing as an Average Adjuster.

Team

LMA manages a wide gamut of Marine Claims under different types of Policy wordings, including:

- Hull and Machinery Claims
- General Average and Salvage
- Security Collection for Container Ships
- Collision Liability/Recovery
- Unrepaired Damage
- Loss of Hire / Earnings
- Ship Builders' Risks
- Ship Repairers' Liability

In addition to the above, LMA deals with other areas like Offshore and Energy Loss Adjusting, Cargo Claims etc.

Statement of Claims or "Adjustments" as they are widely known are prepared in close liaison with the Shipowners, Cargo and other Interests, Underwriters, their Surveyors, etc., by collating appropriate documentation to achieve settlements which are fair and equitable to all. It is ensured that all relevant costs and peripheral expenses which are claimable are included in these Statements. Recommendations for "Payment-on-Account" are also made to obviate the problems of cash flow.

Generally speaking, it is the prerogative of the shipowner to appoint an Average Adjuster, however, the Underwriter can also appoint one. An Average Adjuster acts in an independent and impartial manner in preparing the Adjustment Report.

Adjusters at LMA are well versed and experienced in Maritime Law, Customs and Practice.
